Helping children learn social skills through fun and play

EmoGami is an interactive social communication educational game suitable for ages 5-8.

- Engaging and fun activities
- Teacher dashboard to monitor pupil performance
- Individual and group statistics
- Remote access and feedback
- Different levels of difficulty
- Ability to lock / unlock modules

EmoGami is developed by Autsera, a small team passionate about helping children and young people with social and communication challenges.

At Autsera, we use technology to support children to gain vital social communication skills for their social integration, learning, and future career.

***Our mission
is to empower
children and
support
parents and
teachers***
